Product technical sheet

RECYCLED RC1419

3 - 14 years | 11 kids | 31,2 m²

Material specification

- The structure is made of a durable, moisture-resistant and low-temperature recycled composite,
- Platforms and climbing walls made of durable anti-slip and waterproof plywood or HPL plate,
- Climbing stones made of green HDPE plates made of 100% recycled material, e.g. ocean waste such as fishing nets and ropes, resistant to weather conditions,
- Steel ropes in polypropylene braid, connected with durable plastic elements, stainless steel or aluminum,
- Stainless steel handrails,
- Stainless steel bars,
- Stainless steel screws and/or screws covered with plastic caps,

Physical development

pull-up | passage | climbing

Product technical sheet

RECYCLED RC1419

Product data

Length	310 cm
Width	306 cm
Total height	230 cm
Age group	3 - 14 years
Number of users	11 kids
Safety zone	31,2 m2
Free fall height	220 cm
In accordance with norm EN	1176-1:2017+A1:2023
Weight of the heaviest part	13 kg
Dimensions of the largest part	300x9x9 cm
Availability of spare parts	YES
Installation time	4 h

Data is subject to change without prior notice.

Additional information

- equipment intended for public playgrounds;
- equipment has a certificate issued by an accredited entity or a declaration of conformity;
- no sharp edges or chinks that would pose a danger of jamming the head, fingers or any other body parts;
- anchoring on flat surface, 80/70/60 cm deep;
- render is for reference only, the actual appearance of the equipment and its color may vary;

Guarantee

30 year guarantee - Durability of steel and stainless steel structural elements

15 year guarantee - Durability of steel and stainless steel structures of mobile devices; durability of Robinia wood structural elements

10 year guarantee - Structural strength of HDPE, 100% recycled HDPE and HPL elements; structural elements made of 100% recycled material (composite)

5 year guarantee - Corrosion resistance of stainless steel and hot-dip galvanized and powder-coated steel elements, resistance to bark beetles and rotting of wooden structural elements

Product technical sheet

RECYCLED RC0712

3 - 12 years | 2 kids | 17,6 m²

Material specification

- Powder galvanized and powder coated steel construction,
- The platform is made of recycled HDPE panel, resistant to weather conditions
- Steel springs 20 mm, iron phosphorated and powder coated,
- Stainless steel handrails,
- Screws covered with plastic caps and/or stainless steel screws,

Facilitating disability

easy access | handrails | integration

Physical development

balance | rocking

Product technical sheet

RECYCLED RC1501

1 - 8 years | 9 kids | 21,7 m²

Material specification

- The structure is made of a durable, moisture-resistant and low-temperature recycled composite,
- Platforms and steps made of durable anti-slip and waterproof plywood or HPL plate,
- Structure for platforms made of hot-dip galvanized and powder coated steel;
- Roofs and side panels made of recycled HDPE plates, resistant to weather conditions, green HDPE panels made of 100% recycled materials, e.g. ocean waste such as fishing nets and ropes
- Slides made of stainless steel with sides made of recycled HDPE boards, resistant to atmospheric conditions,
- Educational panels made of recycled HDPE plates, resistant to weather conditions, green HDPE panels made of 100% recycled, e.g. ocean waste such as fishing nets and ropes,
- The labyrinth and frame made of weather-resistant HDPE or HPL board; the windows made of transparent polycarbonate, the ball made of plastic,
- Bucket made of safe, certified rubber with textile reinforcement,
- Calibrated stainless steel chains, preventing fingers entrapment,
- Stainless steel bars and handrails,
- Screws covered with plastic caps and/or stainless steel screws,

Facilitating disability

easy access | mobility | handrails | integration
